Forecast for Thursday 08 Jun 2023

Weather: Staying generally dry, with again early cloud slowly clearing and breaking to likely give some sunshine into the afternoon, tempered by a fresh easterly breeze.

Chance of cloud-free hill tops above 600m: 40% in the east to start, 60% in the west, becoming 90% for all into the afternoon.

Low cloud and visibility: Widespread cloud, thickest in the east, covering some higher tops of the park to start with bases of around 500-600m. Cloud increasingly lifting and breaking through the morning, clearing away from the south and west to leave likely clear skies for many into the afternoon. Visibility generally good outside of any early cloud at height.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High UV levels likely, even with some cloud cover, and sun protection essential. Care should also be taken if heading out onto the hills early or late in the day, with temperatures at height feeling cold in the fresh easterly winds, adequate layers recommended.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

14:00 on Wed 07 Jun 2023	0mm	0mm	0mm

Forecast for Friday 09 Jun 2023

Weather: Similar to previous days, with overnight cloud likely clearing to leave another dry sunny day. Brisk easterly winds persisting.

Maximum wind: Easterly 20-25mph gusting 30-35mph.

Chance of cloud-free hill tops above 600m: 60% to start, becoming 95% for all into the afternoon.

Low cloud and visibility: Early cloud, with bases once again around 600-700m, to start. Cloud breaking through the morning to leave largely clear skies by the afternoon. Visibility generally good outside of any early cloud at height.

Temperature: **Valleys:** 8 deg C becoming 18 deg C.
At 600m: 6 deg C becoming 14 deg C.
Freezing level: Above summits.
